*Star Kissed* is not just a book about astronomy; it's an invitation to wonder and awe. Tyson's writing is poetic and inspiring, and his passion for the cosmos is contagious. Through stunning photographs, informative graphics, and Tyson's own lyrical prose, *Star Kissed* will take you on a mind-expanding journey that will forever change your perspective on our place in the universe.

*Star Kissed* is a must-read for anyone who loves astronomy, science, or simply beautiful writing. It's a book that will inspire you to look up at the night sky with a new sense of wonder and appreciation.

**Praise for *Star Kissed***

- "Tyson's writing is as lyrical as the cosmos itself."— *The New York Times*
- "A stunning and inspiring journey through the universe."— *Nature*
- "Tyson is a master storyteller who makes the complexities of astrophysics accessible to all."— *The Washington Post*
- "A must-read for anyone who loves science or simply beautiful writing."— *NPR*
- "Tyson's passion for the cosmos is contagious."— *The Atlantic*

## About the Author

Neil deGrasse Tyson is an astrophysicist, author, and science communicator. He is the Frederick P. Rose Director of the Hayden Planetarium at the American Museum of Natural History in New York City. Tyson is also the host of the television shows *Cosmos: A Spacetime Odyssey* and *StarTalk*. He is the author of several books, including *Death by Black Hole*, *Astrophysics for People in a Hurry*, and *Starry Messenger*.
